MISSOURI ASSOCIATION OF MANUFACTURERS - eNEWSLETTER

October 25 | Issue 30

"Manufacturing Day was a BLAST at our 6th Annual Manufacturers Fall Shoot Out on October 7th! It was great to spend the day with manufacturers from around Missouri and enjoy the beautiful weather.

Congratulations to all our top shooters! Mark your calendars for our 8th Annual Spring Shoot Out on April 21st. We'll see you there!"

Andrew LeGrand
Dir. of Marketing & Relationships

EVENTS & ACTIVITIES

Ongoing – Online

Starting in October, the Missouri Association of Manufacturers and its Partners will be hosting a **Manufacturing Webinar Series** to bring resources to Manufacturers in the state. We will cover a variety of topics including Cybersecurity & CMMC Compliance, Operating in a VUCA World, Facility Analysis & Expansion, Pollution Prevention and more.

Our first webinar is this Wednesday, October 26th start at 1:00PM. Join MAM Partner and DoD Compliance expert, SSE Inc, as they dive into CMMC Compliance and what your company needs to know about Implementation coming up in the spring.

Is Your Business Prepared for the Upcoming CMMC Implementation?

Wednesday, October 26th | 1:00PM - 2:00PM

Protect your business and keep DoD Manufacturing $$$'s in Missouri!

February 7th & 8th, 2023 – Branson, MO

Missouri Association of Manufacturers

MANUFACTURERS TRADE SHOW & CONFERENCE

PRESENTNG SPONSOR NABHOLZ

MISSOURI: The State of Manufacturing

February 7-8, 2022 | Branson Convention Center

The Manufacturers Trade Show & Conference brings together manufacturers, suppliers, advanced technologies, workforce development and educators supporting and advancing the manufacturing industry.

In partnership with Habitat: Communication & Culture and Mostly Serious, will be presenting our **"The State of Manufacturing Report"**. The results of this comprehensive report will provide a unique and deeper understanding of the manufacturing sector in the state and deliver critical insights to support and encourage business operation expansion in Missouri, as well as help attract new manufacturing business opportunities and economic growth to our state.

This 2-day event will feature manufacturing exhibitors demonstrating next generation technology, manufacturing advancements, sustainability in manufacturing, safety, education and workforce development programs, all with the goal of promoting, preserving and advancing manufacturing.

MANUFACTURING Connection Groups

The Association is excited to launch a new initiative for 2022 – **Manufacturing Connection Groups**. The objective of these Groups is to provide connection opportunities for those working in the various manufacturing roles and to provide a platform for networking, to share information, ideas and best practices. To bring real value to this initiative, each Group will consist of 10-12 participants from different manufacturers within a given region.

Connection Groups meet on a monthly or bi-monthly basis. Members of a **Manufacturing Connection Group** gain access to an online forum to ask questions and share information with all members within the same Group. With the goal of connection driving our vision, there is no cost to be a participant.
