

FREE WORKSHOP: LEAN CONCEPTS TO CREATE FLOW

If there was ever a time to evaluate processes and reduce waste, it's right now.

This workshop is designed for companies who want to receive hands-on training on how to practically implement Lean concepts to create flow, eliminate waste, minimize inventory and balance work in the process to meet customer demand and efficiently use resources.

Workshop hands-on training teaches:

- How to practically create flow, eliminate waste and reduce inventory.
- Techniques to balance workloads and meet customer demand.
- Strategies to optimize resource use across your organization.

Workshop highlights:

- Rapid, focused overview of Lean concepts, definitions and tools.
- Interactive exercises and simulations to apply Lean concepts.

Date: October 29

Time: 12:30 – 4 p.m.
