

Sustainability 101 Workshop

A Free Training for Missouri Manufacturers

EXPLORING SUSTAINABILITY PROGRAMS

Starting Out or Improving Your Existing Strategy

What to Expect

This **FREE** workshop will provide you with fundamental knowledge on how to develop a strong sustainability program that addresses key components such as environmental, social and economic development.

All attendees will receive a complimentary sustainability site assessment from Missouri State University experts!

Workshop objectives:

- ✓ Explore various sustainability program models (ESG, SDGs, etc.)
- ✓ Identify which model best fits your company
- ✓ Connect with other area manufacturers focused on sustainability
